

From the desk of Gerri Hillman

Wayne and I would like to take a moment and open our hearts and our lives to you. First of all, we feel doubly blessed to have two incredible families, our personal family and of course, our extended Life Force family.

For a look into our personal family we go back to the years when we were blessed with three wonderful and healthy children. Life was busy and we were always proud of their achievements. Today our two daughters are very much involved with Life Force. Kathy is Vice President of Human Resources and Marjorie shares the title of Founder with Wayne and myself and also carries the position of President of Life Force. Our son, Ron, shares a busy and happy life with his wife and their family. Combined they have blessed us with eight grandchildren and our life today is very much centered around them. Our grandson, Jerritt Hillman, is now employed by Life Force and works in our Quality Control Department. We are very proud of him and excited that the third generation has now joined our company.

Our entire family all live within five miles of us which makes family events very convenient and grandchildren sleepovers still take place on a regular basis. As our grandchildren reach their teenage years it is very gratifying to watch them grow into more independent and self-sufficient individuals.

Looking now at our extended Life Force family, it always touches our hearts to hear the countless stories that continue to be told of health-changing results from the use of our products and financial security from becoming involved with our business opportunity. Today, more than ever, thousands of people struggle just to meet the basic needs of life. Our hearts especially go out to these people and we will continue to strive to find ways to bring security into their lives. We understand that the needs are great and the decisions that we make must be geared to those needs.

We have an incredible team at Life Force made up of compassionate people who share our goals and our love for people from all walks of life. Together we will continue to build Life Force with integrity and pride knowing that we are serving the needs of many who have chosen to put their hopes and dreams into our hands. We don't take that lightly and our promise is that we will never let them down.

Life Force has recently aligned itself with the Make-A-Wish Foundation and added to our goals that of putting a smile on the faces of children going through a very difficult time and giving back hope and love to the kids and their families. Life Force is all about life, and life is all about giving.

Warmly and with love,

Gerri Hillman

Gerri Hillman
Founder/Chairman of the Board
